THE PIQUE DIAMOND

designates a quality that somewhere below the surface has a carbon spot; it is usually as black as coal and is entirely foreign in substance to the rest of the diamond.

A startling feature of this spot is that it is likely to be multiplied anywhere from two to twelve times by reason of the diamond's wonderful powers of reflection.

We specialize in the quality known as Fine Blue Diamonds of highest brilliancy and power.

INTRODUCTORY

VERNON'S ST. THOMAS DIRECTORY

THE PUBLISHERS take pleasure in presenting herewith the Eighth Annual Edition of Vernon's St. Thomas Directory. A work of this kind to be valuable must, in all respects, be thoroughly reliable and up-to-date. Fully conscious of these essentials, the publishers have taken every precaution to secure accuracy of information.

The Edition embraces the area of GREATER ST. THOMAS, comprising the territory of the city proper and all adjoining subdivisions.

Attention is directed to the Miscellaneous Section in the back part of the volume, containing up-to-date statistics and information, much of which is not to be found elsewhere in print. Your special attention is also directed to the preface pages.

The Advertising Section, together with the Classified Directory, contains a complete alphabetically arranged list of all articles manufactured and sold in St. Thomas, which forms a most efficient wholesale and retail buyers' guide.

ADVERTISING ST. THOMAS

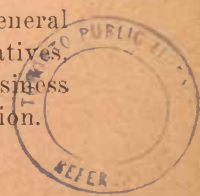

The St. Thomas Directory is placed in the Directory and Public Libraries, Government Departments and business houses throughout the United States and Canada, where it serves the public as a valuable book of reference, and the City it represents as a splendid standing advertisement, **for no other publication can convey such an idea of the City, its business interests and all its various institutions and organizations.** Progressive people realize what **splendid publicity this affords the City of St. Thomas and its industries.**

The Publishers desire to thank their patrons and the general public for the courtesy extended at all times to their representatives, and to say that they fully appreciate the confidence which the business and professional men of St. Thomas have shown in this publication.

HARDWOOD FLOORS

are beautiful, economical, durable, healthful and labor saving.
They are the common-sense answer to the floor question.

RATHBONE OAK VENEER FLOORING

can be put down perfectly by any carpenter or by the man of the house if he is handy with tools. Being only three-eighths of an inch thick it is light and easy to handle, and even with strenuous wear it will last longer than the house itself.

WRITE FOR FOLDER

Write for free folder which gives full particulars. State size of your room and we will quote you cost of flooring in quarter-cut white oak, plain red oak or birch.
